

**EMBRACE MENTAL HEALTH
CENTER (EMHC)**

***CLINIC MONTHLY
INDICATORS***

REPORT 31

REPORTING PERIOD
JUNE 2023

Disclaimer: The below numbers are meant to offer a snapshot of the activities hosted and beneficiaries served at the Embrace Mental Health Center. While information is recorded as accurately as possible, not all information is available at all times.

I. NEW REQUESTS FOR SERVICES

89

Every beneficiary that calls the clinic is briefly screened to gather basic demographic information, understand the reason for which they are seeking services, and orient them accordingly. The new requests represents the number of people who called requesting EMHC services. The outcome of the new requests in the adjacent chart represents the decision taken after the information was gathered from the potential beneficiary.

For the current period, beneficiaries in need of psychotherapy consultations were referred outside because it was not possible to give new appointments due to the long waiting list.

- Referred Outside
- No Services not Available
- Pending Slot Availability
- Appointment Given
- Waiting List

II. REFERRAL SOURCE

The referral source represents the different ways beneficiaries were referred to or learned about the Embrace Mental Health Center.

*Note that mental health professionals include practitioners at Embrace

III. SERVICES PROVIDED

439 sessions

Total **number of beneficiaries** seen (first or follow-up visits): **220**
 Total **number of sessions** provided for the **220** beneficiaries: **439**

	Total		Total
INDIVIDUAL SESSIONS	374	PSYCHIATRIC NURSING SESSIONS	55
Psychiatric Consultations	69		
Mobile Mental Health Clinic* Consultations	61	SOCIAL WORK SESSIONS	10
Psychotherapy Consultations	244		

* MMHC is an expansion of the EMHC. It was introduced in May 2023. The MMHC team travels across Lebanon by Embrace's bus, converted into an equipped clinic, to offer free psychiatric consultations and provide prescribed medications.

VII. PHARMACOLOGICAL TREATMENT

43

During the month of June, the EMHC covered the cost of medications prescribed by its own psychiatrists for **43** beneficiaries seen at the EMHC.

AVERAGE NUMBER OF PRESCRIPTION ITEMS ACQUIRED BY BENEFICIARY:

2

MOST COMMONLY ACQUIRED MEDICATIONS:

FLUOXETINE

LAMOTRIGINE

QUETIAPINE

VIII. PHARMACOLOGICAL TREATMENT provided to beneficiaries transferred to PHCC through MMHC

39

During the month of June, the MMHC covered the cost of **39** medications prescribed to MMHC beneficiaries.

MOST COMMONLY ACQUIRED MEDICATIONS:

SERTRALINE

OLANZAPINE

VENLAFAXINE

IX. MEDICAL REFERRALS

6

During the month of June, **5** beneficiaries were referred by Embrace psychiatrists to Medical Diagnostic Treatment Center to undergo medical tests. The beneficiaries received blood tests measuring the levels of CBC, TSH and electrolytes among others. **All fees of medical testing were covered by Embrace.**

Moreover, **1** beneficiary was referred by Embrace psychiatrists to inpatient psychiatric care at Dar Al-Ajaza Al-Islamia Hospital for a duration of **8 days**. **All Hospitalization fees were covered by Embrace.**

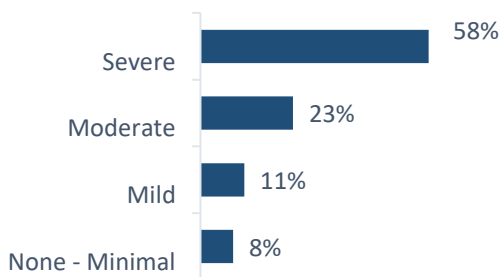

X. MENTAL HEALTH SURVEY SCORES AT FIRST ENCOUNTER

The below charts present a summary of symptom severity for beneficiaries **whose first session was this month** (i.e., the charts represent scores at beneficiaries' first session):

PHQ-9: a validated instrument used for measuring the severity of depression.

GAD-7: a validated instrument used for measuring the severity of anxiety.

DEPRESSIVE SYMPTOM SEVERITY (n=73)

ANXIETY SYMPTOM SEVERITY (n=73)

POST-TRAUMATIC SYMPTOMATOLOGY (n=73)

TSQ is a brief trauma questionnaire used to predict a post traumatic stress disorder (PTSD) diagnosis.

***Note** that screening positively or negatively does not determine or rule out a diagnosis. Screening positively is predictive of PTSD.

MENTAL HEALTH SURVEY SCORES OVER 6 MONTHS

During their first visit, the beneficiaries are asked about common symptoms of depression and anxiety. As they progress through treatment, beneficiaries are asked to take the same surveys again every few months.

The questionnaires are:

- PHQ-9:** a validated instrument for measuring the severity of depression.
- GAD-7:** a validated instrument for measuring the severity of anxiety.

*Beneficiaries seen by psychiatrists are asked to fill the survey on each visit;
Those seen by psychologists on the first session, every 12 sessions and on the last session;
Those seen by therapists-in-training on the first session, every 3 months and on the last session.*

A SNAPSHOT OF BENEFICIARY IMPROVEMENT OVER 6 MONTHS December 2022 - May 2023

Levels of Depression Reported Pre and Post Treatment (n = 168)

Around **71%** of beneficiaries reported substantial improvements in symptoms of depression.

*Note that the indicated cut-off score has been shown to have 89% sensitivity in detecting current depression (Manea et al., 2012)

Levels of Anxiety Reported Pre and Post Treatment (n = 172)

Around **75%** of beneficiaries reported substantial improvements in symptoms of anxiety.

*Note that the selected cut-off score has been shown to have 89% sensitivity in detecting current anxiety (Spitzer et al., 2006)

XI. SOCIAL WORK

The mental health social worker at the **Embrace Mental Health Center** (EMHC) aims to provide a holistic approach to mental health care by offering psycho-social assistance to beneficiaries. The center is resourced with a comprehensive referral database that is updated every 4 months and is linked with a network of governmental and non-governmental organizations that provide a wide range of psychosocial services from livelihood, shelter, basic assistance, child protection, and organizations catering to the needs of vulnerable groups such as refugees, LGBTQ community and persons affected by gender-based violence. The mental health social worker coordinates with a multi-disciplinary internal team of psychologists, psychiatrists, psychiatric nurse, and the National Lifeline (1564).

TOTAL NUMBER OF CONSULTATIONS *	10	TOTAL NUMBER OF ACTIVE CASES	9
1st CONSULT#	2	FOLLOW UP **	8
TOTAL NUMBER OF BENEFICIARIES SEEN / CONTACTED		6	
		TOTAL NUMBER OF CLOSED CASES	2

**Total number of consultations: Refers to all social work consultations taking place between the Mental Health Social Worker and beneficiaries referred (may include more than 1 consultation per beneficiary)*

Total Number of Active Cases: Refers to the number of beneficiaries who are still being followed up by the Mental Health Social Worker

1st Consult: Refers to the number of beneficiaries who were referred for the first time during this month from EMHC to social work services

***Follow up: Refers to the number of follow up consultations (out of the total consultations)*
